## Executive Directors Leadership Program

The Executive Directors Leadership Program (EDLP) is a three part, 6-month experiential and interactive program designed to give executive directors the knowledge, skills, and support they need to effectively lead, manage and move their organizations forward. Grounded in LEAP's Leadership Framework and focused on leadership development from an Asian and Pacific Islander cultural lens, participants will combine personal and professional growth within the context of their work, explore and advance meaningful leadership practices, and sharpen strategic management skills. Through a 6-month one-on-one coaching process, participants will be able to implement their lessons learned and sharpen their skills with their peer mentors.
